To Whom It May Concern

Massey University, Manawatu Campus, New Zealand have been using DisBin products for our food waste collection operation and have found these products to be excellent. Because these products use recycled or biodegradable materials they assist the University in meeting our goals surrounding sustainable best practices on our Manawatu sites.

I would have no hesitation in recommending these products to any other organisation that was trying to improve their recycling and sustainability practices.

If you would like more information please feel free to contact me via the following email address; k.r.mcewen@massey.ac.nz or via telephone on 0064 6 3505888.

Yours Sincerely

Ken McEwen
Environmental & Emergency Operations Manager
