

# D-Germ™

## Alcohol Free Hand Sanitiser

- Kills 99.99% of germs on contact and remains active for up to 2 hours
- Moisturises with each use—will not dry your hands like alcohol sanitisers
- Utilises Benzalkonium Chloride instead of alcohol, making it safe and effective
- Gentle, fragrance free and fun to use!
- Saves money with more applications per litre than alcohol gels
- Non-flammable, non-irritating, safer and more effective to use than alcohol
- Tested and approved to EN12054—hygienic and surgical hand rub  
NZFSA approval
